MESSAGE

WHETHER YOU NEED TO RELAX or simply ease sore muscles, we have just what you need to rebalance and renew. Ask your Spa Concierge how to customize your experience with one of our massage supplements.

Mokara Signature Massage

Using a combination of massages, this signature service is orchestrated to your specific needs. A heat-activated, whipped, shea butter balm leaves your skin incredibly dewy and hydrated. Customize this therapy by choosing your scent and let our expert therapists do the rest!

Swedish

Bring your body and mind into balance while easing away the stress. Using time-honored Swedish massage techniques, this light massage is designed to stretch and relax weary muscles – inducing pure relaxation.

Deep Tissue

Working deep in the muscles and joints, this treatment helps to warm and relax overexerted bodies. Firm techniques are used to melt away stress, soreness and tension while improving flexibility.

Aromatherapy

Combines traditional Swedish massage techniques with essential botanical oils to refresh, restore and revitalize. Relax and enjoy your choice of pure oils, from calming or harmonizing to energizing.

Mother to Be

Prenatal massage focused on the needs of the mother to be. Safe pregnancy techniques help to alleviate fatigue, soothe muscle and joint pain, and improve circulation. Our all-natural, chemical-free, whipped shea butter balm is used to help increase the skin's resiliency and suppleness.

Sports

Designed to ease areas of muscle tension and soreness, this massage uses a variety of pressure-point and stretching techniques. Helps soothe activity-induced muscle stress while increasing range of motion and flexibility. Great after a long hike or a day on the course. Loose-fitting clothing can be worn.

Couples

Escape with someone special into a romantic haven and receive side-by-side Swedish massages in our specially designed treatment room. Finish the romantic bliss with chocolate-covered strawberries and champagne together in our relaxation sanctuary. *Ask about our other couples treatment options.*

Reflexology

Achieve an overall sense of calm with this ancient method of unblocking energy meridians. Acupressure massage concentrates on the pressure points in your hands, feet and head, which correspond to various organs.

Hot Stone

This specialty massage uses volcanic basalt stones to release tight muscles – soothing away aches and pains. Tension knots melt away as traditional Swedish techniques send you into a state of blissful relaxation. Definitely one of our recommended massages!

Thai Inspired

Traditional Thai methods are used to work out physical tension, while freeing the mind from negative emotions. The therapist uses warm boluses composed of a mixture of marine salt crystals and lavender flowers wrapped in linen sachets. With specific movements and pressure points, the body is stretched and the flow along energy meridians is balanced in order to restore the entire body.

Massage Break

Better than a coffee break! Recharge with a quick massage focusing where you need it most.

MASSAGE THERAPY ENHANCEMENTS

BODY TREATMENTS & WRAPS

OUR BODY TREATMENTS *are sensory journeys with restorative elements. Choose to focus on detoxification, remineralization, exfoliation or just pure relaxation.*

The Ultimate Moisture Wrap

This hydrating and smoothing experience begins with a full body exfoliation followed by a massage with our all-natural shea butter balm. As your skin absorbs the rich shea butter, the body is wrapped cocoon-style while you enjoy a scalp massage. This entire experience will leave you feeling replenished and relaxed.

Sea Salt Scrub & Massage

A full body scrub that refines, softens and renews skin's texture by exfoliating away dry, dead skin cells. Rinse off in a soothing rain shower with 13 nozzles, as seasonal aromas fill the room. Next, enjoy an application of hydrating moisturizer to leave your skin feeling smooth. Complete this pampering with a relaxing head, neck, shoulder and back massage.

Slimming & Detoxifying Seaweed Wrap

A pure freeze-dried seaweed is used to increase metabolism, diminish fluid retention and flush toxins from the body. Start with a full body exfoliation, followed by an application of seaweed. Rest under a Japanese warming blanket then rinse off in a soothing rain shower with 13 nozzles, then return to the treatment table for a massaging application of rich, body-contouring cream. This treatment is the perfect complement to any body-contouring or weight-loss program.

For maximum results, ask about our at-home follow-up care.

Contouring Cellulite Treatment

After a dry exfoliation to remove the surface layer of dead skin cells, receive an application of exceptional soothing serum to improve circulation and unlock trapped toxins. Specific massage techniques are then used to help break up fatty deposits and reduce flawed appearance of skin. Great for lower body contouring. For best results we recommend 6 treatments on a bi-weekly basis. *For maximum results, ask about our at-home follow-up care.*

Yon-Ka Sunless Tanning

Obtain a radiant sunless glow all year long without the damaging exposure of UV rays. Enjoy a gentle body buff, exfoliating dead skin cells, to ensure a long-lasting, even color. Next, Yon-Ka Autobronzant, a chemical-free plant-based sunless tanner, is smoothed evenly over your skin. To preserve your tan, take the remainder of the Yon-Ka Autobronzant home with you, for follow-up applications. Wear loose-fitting clothing and do not shower for at least 7 hours after application.
